Advantages

Another Stream of Revenue

Go4Clients White Label (G4WL) is a complete omni-channel platform that offers multiple strategies to engage with customers. We give you the most used digital communication tools in the market to increase customer interaction and generate more revenue.

Your Plans & Prices

Create your own plans and prices, keep balance sheets, and statistics of your operation.

Complete Re-Branding

Configure your brand, logo, domain, customer service email, phone, terms & conditions, and even payments methods as your own brand.

All of Go4Clients Functionalities

Get complete access to all of Go4Clients functionalities. You'll continue to have the latest versions as we continually update our platform.

Analytics of Your Customers

Review detailed information on your platform usage, check out the behavior of your clients in real time. On the dashboard, you can see a quick view of the platform performance of your clients.

Access to Go4Clients API

Your White Label platform will have the option of accessing all of Go4Clients APIs. Your end uses will be able to access all of your APIs functionality without restriction & access them using your own platform domain.

Financially viable

Minimum Investment

Single setup cost of \$1000, monthly maintenance cost of \$250, & cost per transaction as low as 0.0035 (plus the cost of SMS & Voice minute).

The More You Send, The Lower The Transaction Cost

Cost per transaction ranges from 0.0075 to 0.0035, plus the cost of SMS or Voice minute.

Use Your Own SMS & Voice Routes

By default Go4Clients White Label (G4WL) uses the Go4Clients Voice and SMS routes, but if you would like to use your own routes, you can. Just pay for the cost of the transaction and the binding fee. This solution is ideal for wholesale operators.

Support

Training

Once you are setup we will provide 10 hours of training of the Go4Clients White Label (G4WL) platform and supply you with dedicated support agents to help you along the way.

Customer Service

Administrators and Agents have access to user accounts to provide customer service. Administrators can establish roles to control agents and accounts.
